TILL 21/3/2018

Consultant Radiologist Fauji Foundation Hospital
Bedian Road , Lahore Cantt
Pakistan.
Assistant Professor Radiology'
Shalamar Medical and Dental College Lahore.

Education

- MBBS from Allama Iqbal Medical College Lahore in 1983.
- DMRD from Post Medical Institute Lahore. In Feb 1996.
(Both institutes are attached with The University of Punjab)

Professional experience

▪ FAUJI FOUNDATION HOSPITAL

Working as Consultant Radiologist and since August 2001.
Fauji Foundation Lahore is a 200 bedded hospital, with latest facilities.

Radiology department is equipped with latest x-ray machines Fluoroscope. Ultrasound, Color / Power Doppler and a CT Scan. All kinds of diagnostic and interventional procedures are carried out in routine.

Job details

I am actively engaged with all the diagnostic interventional and research work carried out in the department. I have good experience of reporting x-ray films and performing various diagnostic procedures like Barium studies, Sialographies, Myelographies, urinary tract studies, venographies, PTCs etc.

I have a good hand with ultrasound. I have performed large number of diagnostic and ultrasound guided biopsies and drainage procedures.

I have experience of working with CT Scan. In addition to diagnostic work I have been able to perform CT guided biopsies.

▪ **SAUDI ARABIA**

Worked in Abqaiq for a brief period, from October 2000 to August 2001 in Minar-as-Siha dispensary. Passed my examination for accreditation with Ministry of Health. Did not continue long due to personal reasons .

▪ **MAYO HOSPITAL LAHORE**

Department of Radiology and Medical Imaging, Mayo Hospital Lahore from March 1st 1994, to October 2000.

Mayo Hospital Lahore is over 1800 bedded hospital attached with King Edward Medical College. It is one of the largest and oldest centers in this region for both under and postgraduate medical training.

Department of Radiology has large patient turnover and is equipped with conventional x-ray, Fluoroscopy, ultrasound and latest spiral CT.

Job details

I am actively engaged with all the diagnostic interventional and research work carried out in the department. I have good experience of reporting x-ray films and performing various diagnostic procedures like Barium studies, Sialographies, Myelographies, urinary tract studies, venographies, PTCs etc.

I have a good hand with ultrasound. I have performed large number of diagnostic and ultrasound guided biopsies and drainage procedures.

I have experience of working with CT Scan. In addition to diagnostic work I have been able to perform CT guided biopsies.
