OBJECTIVE

Why To Attain a Position As a Faculty Member?

[2023]

To pursue a career that contributes towards improving quality of life through higher education and introducing preventive health care among younger as well as disadvantaged population groups, preferably in a multicultural environment, blending technology and teamwork as principle working tools.

" A confident communicator who can relate well to dental patients. Having a proven ability to ensure that dental practices in a surgery are continuously updated to provide first rate care to patients and their families. A confident healthcare professional with a long track record of successfully diagnosing and treating patients' dental conditions. Able to work as part of the dental team, and has a flexible approach to work. Looking for opportunity to work with a forward thinking and highly regarded dental organization."

'To attain a position as teaching faculty member (Senior Registrar/Assistant Professor) employ my knowledge and amplify to produce best out of my professional skills, hence enhancing the quality of dental health in well-organized teaching institute by extending my services for patient care compliance and teaching prosthodontics to dentistry students. Intend to work with complete determination and hard work'

'A teaching faculty member within a leading dental institute which offers a high level of challenge, responsibility, and the opportunity for continued career growth.'
