# Our Mission

Akhtar Saeed Medical & Dental College, Lahore, endeavors to produce medical and dental graduates who will be knowledgeable, skillful, humane, committed to lifelong learning, research oriented and dutiful to their profession and society at large.

## VISION STATEMENT

**Qualitative and Quantitative Revolution in Medical and Dental Education and Research through Evolution and thereby improve Health Care delivery to Populace.**

AMDC shall be innovative global center of excellence in learning and research, supporting a community of scholars and professionals committed to serving society, promoting the development of students to reach their true potential in becoming competent, ethical, caring and inquiring health professionals for the benefit of the country and the wider world.

# Our Goals

Akhtar Saeed Medical & Dental College will endeavor to produce medical and dental graduates competent in cognitive and psychomotor skills as doctors, possessing higher humane qualities and while in practice of their profession, acting as servants of ailing humanity and a beacon of hope and benevolence for the down trodden masses and other sections of the society and the world at large.

The college will establish standards of teaching and training of medical students comparable to national and international standard.

An integrated modern cognitive curriculum involving multiple teaching and learning strategies will be practiced for holistic training of patient care.

National and International standards of patient care will be enforced in the affiliated teaching hospitals enabling the students to achieve clinical competence in managing real life clinical problems.

Adoption of professional counseling in the affiliated hospitals to develop a patient friendly culture where all members of health care team are imbued with sentiments of love and kindness for the patients.

To ensure achievement of clinical competence and soft skills, the students will be exposed to state of the art health facilities in affiliated teaching hospitals from the very beginning of their curriculum.

Culture of research will be inculcated both in the faculty and students.

The college and affiliated hospitals will endeavor to become center of excellence in prevention and management of disease.

The college and affiliated hospitals will endeavor to become a focal place for the community participation and raising awareness among masses by imparting health education.

Although college will be concentrating on undergraduate medical and dental education in initial years, it however will embark upon nursing and postgraduate medical education in future.

# Outcomes

## **Outcome # 01:**

**To ensure that it offers academic programs in medical and health sciences of high quality which is recognized locally, regionally, and internationally.**

### **Objectives:**

To design, develop and offer Undergraduate programs after the accreditation process is completed for the respective undergraduate program:

- a) Medical Program (MBBS)
- b) Dentistry (BDS)

## **Outcome # 02:**

**To promote openness, diversity, fairness and academic freedom.**

### **Objectives:**

- To demonstrate the ability to organize, record, research, present, critique and manage health science related information.
- To demonstrate the ability to work effectively as a part of health care team with appreciation for the multiple contributions of other health care professionals towards the health of the individual and that of the community.
- To monitor the access students, faculty and administrative staff have to the records, faculty development and seminars.
- To evaluate coordinators, supervisors, students and patients in relation to openness, diversity and fairness and to ensure that key results are entered into the annual strategic plan for action and review.
- To promote interdisciplinary opportunity for students and staff.

## **Outcome # 03:**

**To ensure that its graduates are equipped with knowledge and skills which allow them to enter the medical and health sciences fields as self-learners, critical thinkers, team players, ethically oriented, and to contribute to the development of the society they live in.**

### **Objectives:**

- To develop strategies to support lifelong learning via both print and electronic sources and to remain up-to-date with the advances in medical and health sciences knowledge, skills and practice.
- To demonstrate the ability to acquire new information and data and to critically appraise its validity and applicability to one's professional decision.
- To demonstrate the ability to communicate compassionately and effectively, both verbally and in writing with colleagues, patients and their families.
- To display the personal attributes of compassion, honesty and integrity in relationships with patients, colleagues and communities.
- To exhibit a capacity for self-evaluation, moral reflection and ethical reasoning to form the basis for a self-directed, lifelong engagement and involvement in the medical and health sciences profession; and
- To monitor the outcomes of the strategies to support lifelong learning for students, academic faculty and admin staff and to ensure the key results are entered into the annual strategic plan for action and review.
- To develop an alumni association to support graduates in their life after AMDC.

## Outcome # 04:

**To contribute to the advancement of medical and health sciences knowledge and practice through support of research activities conducted by its faculty and students.**

### **Objectives:**

- To encourage faculty to participate in scholarly activities by attending conferences, seminars and enabling them to publish research papers in scientific journals.
- To facilitate the faculty to write for research projects and receive research grants.
- To facilitate the utilization of intellectual property of the University for betterment of the humanity at large.
- To monitor budgetary support access to conferences, external seminars, research and to ensure the key results are entered into the annual strategic plan for action and review.

---

## Outcome # 05

**To render ethical healthcare and service to all patients with highest degree of accountability to self and community.**

### **Objectives**

- To be able to describe and discuss the implications of basic ethical principles including confidentiality, informed consent, truth telling and justice for the care of the patient.
- To demonstrate the ability to educate patients and community about various health problems and to motivate them to adopt health promoting behaviours.
- To monitor student and faculty access to continuing education programs, speakers bureaus, clinical training and to carry out patient and community surveys and to ensure the key results are entered into the annual strategic plan for action and review.

---

## Outcome # 06:

**To accentuate growth of the institute by promoting various academic activities, establishing interdepartmental alliance with Health University and PMC/PM&DC**

### **Objectives:**

- To foster interaction with health care, to promote research, infrastructure development and student placement.
- To establish consortial agreements with other premier health institutions and Universities to foster academic research collaboration including faculty and student exchange.
- To monitor the development of outreach programs, internships, collaboration with other universities/institutions and to ensure the key results are entered into the annual strategic plan for action and review.
- To monitor the development of a career planning unit and to ensure the key results are entered into the annual strategic plan for action and review.

# Competence of Dental Graduates

Priority should be accorded to reconciling activities geared towards the health of individuals. Research should be dedicated to the design of appropriate schemes, whereby both sets of activities could be carried out in coordination and in an acceptable and cost-effective balance, either in the same health care setting or by the same health professionals.

The concept of the “seven-star doctor” is proposed as an ideal profile of a doctor possessing a combination of aptitudes to carry out the wide range of services that health settings must deliver to meet the requirements of relevance, quality, cost-effectiveness and equity in health. The seven sets of attributes of the “seven-star doctor” are summarized as below:

---

## The Seven-Star Doctor

---

The expected generic competencies in a medical graduate are as follows:

- Skillful
- Community Health Promoter
- Professional
- Leader and Role Model
- Knowledgeable
- Critical Thinker
- Scholar

A 'seven-star doctor' graduate from PMC/PM&DC should be able to demonstrate attributes as mentioned.

### **SKILLFUL (CLINICAL, COGNITIVE AND PATIENT CARE SKILLS)**

Competent medical graduates require sound clinical skills grounded in knowledge of patient-centered care. They should be able to demonstrate that they can:

- Take a focused history
- Perform physical and psychological examinations
- Formulate a provisional diagnosis
- Order appropriate investigations and interpretation
- Perform various diagnostic investigations and make management plan
- Debate the advantages, disadvantages, indications, contra-indications, limitations and complications of the current treatment modalities and justifying the use of each by best available evidence.
- Formulate management plans in partnership with patients according to standardization.
- Advice and counsel the patient and their family members
- Educate the patient regarding the health problem, available choices, management plan, self-care, and use of prescribed drugs and equipment.
- Recognize and take into consideration issues of equality, equity and diversity
- Describe and debate the reasons for the success or failures of various approaches to increase prevention and to decrease social inequities
- Manage time and prioritize tasks and use of resources.
- Ensure patient safety always including strict infection control practices.

# Competence of Dental Graduates

## **KNOWLEDGEABLE (SCIENTIFIC KNOWLEDGE FOR GOOD DENTAL PRACTICE)**

This embodies knowledge of basic dental and clinical sciences required for the practice of medicine.

## **COMMUNITY HEALTH PROMOTER (KNOWLEDGE OF POPULATION HEALTH AND HEALTHCARE SYSTEMS)**

To deal with problems of population-based primary health care, including health promotion and disease prevention with special emphasis on vulnerable populations. Dental graduates require knowledge of population health and healthcare systems. The graduates should understand their role and be able to take appropriate action for protecting and promoting the health of populations.

## **CRITICAL THINKER (PROBLEM SOLVING AND REFLECTIVE PRACTICE)**

The ability to critically evaluate existing knowledge, technology and information, and to be able to reflect on it, is necessary for solving problems.

## **PROFESSIONAL (BEHAVIOR AND PROFESSIONALISM)**

Competent dental graduates require professional values, attitudes and behaviors that embody good dental practice i.e., life-long learning, altruism, empathy, cultural and religious sensitivity, honesty, accountability, probity, ethics, communication skills, and team work. The dental graduates should be cognizant of the PMC/PM&DC competencies. Graduates should be role models of their code of conduct, professionalism and values, on and off duty, throughout their lives, and thus lead by example, in order to justify the trust reposed in them by public. Their behavior must enhance public trust in the profession.

### **Life-long Self-directed Learner**

Dental graduates must continually acquire new scientific knowledge and skills to maintain competence and incorporate it into their day-to-day dental practice. For life-long learning, they should demonstrate a desire for continuing dental education during their professional life through personal development activities to continuously acquiring and using advance knowledge and technologies.

### **Altruistic and Empathetic**

Dental graduates should be able to demonstrate professional values of empathy, altruism and cultural sensitivity in arranging or coordinating the best possible care.

### **Ethical**

Dental graduates should be able to demonstrate professional values of self and professional accountability, honesty, probity, and ethics.

### **Collaborator**

The dental graduate should be able to demonstrate skills of teamwork to best serve the interests of the patient, profession and institution by:

- Working as an effective team member, understanding the importance of each role.

# Competence of Dental Graduates

- Demonstrating collegiality and respect for juniors, peers, seniors and the healthcare team.
- Continuously assessing themselves and others in their roles and acting accordingly.
- Sharing information and handing over care appropriately.
- Focusing on a collegial but problem-solving approach.

## **Communicator**

The dental graduates should be able to demonstrate:

- Non-Verbal communication skills
- Verbal communication skills
- Written and electronic communication skills
- Confidentiality
- Dissemination of information and research

## **SCHOLAR & RESEARCHER**

The dental graduates are expected to demonstrate constructive criticism, a spirit of enquiry, creativity and research-oriented attitude.

## **LEADER AND ROLE MODEL**

The dental graduates are expected to demonstrate exemplary conduct and leadership potential in:

- Advancing healthcare.
- Enhancing medical education.
- Initiating, participating in and adapting to change, using scientific evidence and approaches.
- Enhancing the trust of the public in dental profession by being exceptional role models at work and also when away.
- Accepting leadership roles if required.
- Providing leadership in issues concerning society.

# Reasons to Choose AMDC

- **Dynamic and innovative** process of learning which facilitates growth
- Teaching is **implemented by** using modern and **innovative** tools by highly skilled faculty members **recognized** nationally and internationally.
- **Integrated curriculum** involving multiple teaching and learning strategies according to guidelines of PMC/PM&DC 2022

- Curriculum and teaching strategies based on **adult learning theory** and prevalent philosophies of learning
- **Research** intensive learning methodology
- Purpose build campus facility with well equipped **laboratories**, lectures **theaters** and **auditorium** fully equipped with multimedia and modern audiovisual aids

- Well-established **central library** equipped with all essential medical books and scientific journals for students and faculty
- Co-curricular and extra curricular **activities**
- **Affiliated teaching hospitals** providing excellent clinical experience
- **Furnished hostel accommodation** and **mess facilities** separately for boys and girls

# Chairman's Message

Akhtar Saeed Medical & Dental College is an academic community which values learning and research of the highest standard and aims to foster independence of thoughts in students.

In the name of Allah the most beneficent, the most merciful.

Dear Students,

It is my pleasure to welcome you at Akhtar Saeed Medical & Dental College (AMDC), Bahria Town, Lahore. By joining AMDC you will surely evolve into a professional and disciplined healer in a challenging and fulfilling environment. In this process you will feel avant grade when you gleefully experience a dynamic and innovative process of learning which facilitates your growth. Our faculty will guide you all the way.

At Akhtar Saeed Medical & Dental College, you will join the academic community which values learning and research of the highest standard and aims to foster independence of thoughts in students. We wish to educate students in the broadest sense of word so that you will be equipped with long learning competencies. Our emphasis will be on instruction of how you learn and take the responsibilities for your own learning, not just providing you with the relevant facts in order to pass the examinations. We will place more importance on competencies and skills you will require throughout your professional life (information handling, critical thinking, decision making, problems solving, communications, team management, leadership and clinical skills). You will be taught by the clinical and scientific academics who are at the forefront of their respective fields, nationally and internationally. The curriculum and teaching strategies at AMDC will be based on adult education themes and the prevalent philosophies of learning.

Akhtar Saeed Medical & Dental College is situated in South West of Lahore, in a calm and fascinating suburb, called Bahria Town. AMDC will be a great place to simultaneously live in harmony with nature and nurturing a state of spiritual and moral aggrandizement in conformity with the will of Creator. A happy mixture of the two should help you grow into a happy and fulfilled human being.

**Dr. Farooq Saeed Khan**  
Chairman, AMDC

# Co-Chairperson's Message

We are proud to have our own tertiary care teaching hospitals, which apart from serving poor and deserving population also provide excellent clinical experience for our students.

In the name of Allah the most beneficent, the most merciful.

Dear Students,

By the grace of Allah Almighty we are going to start our new academic year. I feel immensely delighted to welcome our new admits to Akhtar Saeed Medical & Dental College family. I assure them that they have chosen to pursue their medical education at an institution, which is wholly committed to their development as clinically competent, dynamic & empathetic physicians.

Akhtar Saeed Medical & Dental College has a state of art purpose built college campus with modern teaching facilities. We are proud to have our own tertiary care teaching hospitals, which apart from serving poor and deserving population also provide excellent clinical experience for our students.

The excellent collaboration between the college and the hospitals offers the students an atmosphere of congeniality & education per excellence. I wish all of you the best of luck as the path before you is both highly challenging and rewarding.

May Allah be with you all.

**Dr. Fariha Farooq**

Co-Chairperson AMDC

# Message From

**Lt. Gen. (R) Arshad Mehmood**  
(Member Board of Management)

It gives me pleasure to announce that Akhtar Saeed Dental College is making valuable contribution in the dental education in Pakistan. During my interaction with the students of the college, I have found them to be well trained and well groomed. I hope that the graduates of, Akhtar Saeed Dental College Lahore shall possess all the qualities expected of a doctor including compassion, dutifulness, empathy and humility. I wish that all students of Akhtar Saeed Dental College have a very successful and brilliant future.

**Lt. Gen. (Retd.) Arshad Mehmood**  
Ex-Vice Chancellor University of the Punjab.

# Message From

**Brig. (R) Balal Ahmed Khan**  
(Chairman Akhtar Saeed Trust Teaching Hospital Lahore)

Akhtar Saeed Trust Hospital was established in 2001, on the vision of my (Late) father, Mr. Saeed Hussain Khan, who met his Creator in year 2003. At that time it was 30-bedded charity hospital which has been extended to 302 beds and attached to Akhtar Saeed Medical & Dental College, Bahria Town, Lahore as teaching hospital in year 2008. Presently, Akhtar Saeed Trust Hospital is a tertiary care facility having all essential & subspecialties. It is equipped with state of the art infrastructure and has potential to expand and provide lots of opportunities for clinical training & research for medical students. I wish this institution to become a center of excellence in medical education & patient care.

**Brig. (R) Balal Ahmed Khan**  
SI (M)

# Message From the Principal

**IN THE NAME OF ALLAH THE MOST BENEFICENT, THE MOST MERCIFUL,  
Dear Students,**

I feel immensely pleased to welcome you in Dental Section, Akhtar Saeed Medical & Dental College, Lahore located in the southwest of Lahore. It consists of two clinical campuses: first one situated in the premises of AMDC in a calm and fascinating suburb called Bahria Town and the other one located in peaceful community of Westwood Lahore in the premises of Farooq Hospital (teaching hospital of AMDC).

The institution has spacious, purpose built (according to PM&DC parameters) fully air conditioned buildings housing various teaching laboratories and clinical departments with latest equipment and modern facilities to impart excellent training to the students. Well equipped teaching dental laboratories including Oral Biology, Science of Dental Materials, Community Dentistry, Oral Pathology, Phantom Heads, Plaster and Ceramic lab. Clinical departments include Oral Diagnosis & Oral Medicine, Radiology, Oral & Maxillofacial Surgery, Operative Dentistry, Periodontology, Prosthodontics and Orthodontics. This College has outstanding teaching faculty comprising of highly qualified, reputed and well experienced teachers.

Long awaited visit of PMDC was conducted on 12<sup>th</sup> November, 2015. The inspectors visited each and every department and labs in detail as per PMDC criteria. They appreciated the purpose built building structure specially the provision of dual-compressor room with R.O water and central suction system which was fully functional. By the grace of Almighty Allah, AMDC scored the maximum points in the history of Medical and Dental Colleges. As a result of this, PMDC allowed the initial enrollment of 50 students per session.

Dear students, by entering a Dental Section of AMDC you have chosen a noble profession where you can serve humanity and earn blessings of Almighty ALLAH. At this institute we aim to educate students in the broadest sense of word so that when they graduate they are not only competent professional dentists but also better humans. At Akhtar Saeed Medical & Dental College, in addition to academic teaching emphasis is also given to moral training, grooming and character building.

I am confident that the students getting admission at this college will be trained and well groomed to become competent, confident, and compassionate doctors who will earn fame and respect within the country and abroad and will be a source of pride for their parents, teachers and institution.

**Prof. Dr. Sabir Hussain**  
B.D.S, MCPS, M.D.S  
Principal (Dental Section)  
AMDC, Lahore.

# Introduction of the College

Dental Section, Akhtar Saeed Medical & Dental College, Lahore was established in 2015. It was inspected and granted permission to train 50 dental students with effect from academic session 2015-16 by Pakistan Medical and Dental council (PM & DC), Islamabad.

The AMDC is situated in the south-west of Lahore in the picturesque area of Bahria Town, on the national highway from Lahore to Multan. The building of dental college is majestic and inspiring for the visitors. All the seven basic departments are purpose built, having well equipped laboratories. Four lecture theaters (each with a capacity of 100 seats), four tutorial rooms (each with a capacity of 50 seats) and an auditorium having a capacity of 540 audience are fully equipped with multimedia and modern audiovisual aids. The auditorium is used for general assembly of students, symposium, seminars, clinico-pathological and other conferences. Skills Labs having facilities for practical and training students is also available.

# Affiliated Teaching Hospitals

## Akhtar Saeed Trust Teaching Hospital

A most modern & high-end dental hospital established in 2014 affiliated with Akhtar Saeed dental college located at the heart of Bahria town, Lahore. This hospital is established to offer supreme dental services with charitable rates and equipped with all latest dental equipment. This hospital has 6 teaching clinical departments; Oral diagnostics, Operative Dentistry, Oral & Maxillofacial surgery, Periodontology, Orthodontics and Prosthodontics as per Pakistan Medical & Dental commission. The oral radiology department of the hospital is well equipped with modern panoramic scanning digital dental X-ray machine. A well developed dental OPD with operating 51 functional dental units fulfil the demands of clinical teaching of the college. Dental emergencies are tackled efficiently in this setup on priority basis. The dental hospital provides various dental services including fillings, RCT, Endo-post, teeth whitening, pulpotomies, pulpectomies, crown & bridge, removable and fixed prosthesis, partial and complete dentures, obturators, scaling, polishing, curettage, gingivectomy, removable orthodontic appliances and fixed orthodontics.

## Dental Clinics Farooq Hospital (Westwood Branch)

Dental clinics Farooq Hospital W.W is operational since January, 2015. The Dental clinics contains approximately 25 units which are specified for Periodontology and Oral & Maxillofacial Surgery patients. The clinics also cater general dentistry patients. A 20 bed ward is specified for Oral & Maxillofacial Surgery patients, including facial trauma, orthognathic surgeries and oral pathology surgeries.

Facility for pediatric dental patients on Dental unit side and under general anesthesia is also available. A highly qualified Pedodontist is available for such patients.

## Akhtar Saeed Trust Teaching Hospital

The main affiliated tertiary care hospital of the medical and dental college. It is a charitable hospital having all the specialties required for undergraduate medical and dental education. The hospital is governed by the board of trustees of Akhtar Saeed Trust (a body duly constituted under the law). It is situated in DHA EME Sector. It is purpose build four-storied building. It has the capacity of more than 300 patients. All the major clinical departments are established in this hospital. These include department of Medicine, Surgery, Gynaecology & Obstetrics, ENT, Ophthalmology, Dentistry, Psychiatry, Dermatology, Peadiatrics, Radiology and Physiotherapy. More than 500 patients are attended in outdoor daily.

## Farooq Teaching Hospital (Allama Iqbal Town)

The other affiliated 120-bed teaching hospital of the college is situated in Allama Iqbal Town, Lahore, near the new campus of the University of the Punjab, Lahore. The dental clinic at Farooq Hospital is one of the projects of Farooq Hospital to provide state-of-the-art dental services to its patients. It is equipped with modern facilities such as an digital X-ray, a single-visit RCT system, two modern dental units, and an implant facility. A dedicated team of skilled professionals manages this facility to provide the best and optimal dental treatment to the patients. A purpose-built lecture hall has also been added for teaching and holding various seminars.

# Living at AMDC

The dental college has appropriate number of furnished rooms to provide hostel accommodation to the students, intending to reside in hostel. Separate hostel accommodation is built for boys and girls. Mess facilities will also be provided in the hostel for boys and girls separately.

### **Administrative structure of Hostels**

There is a warden of hostels assisted by assistant wardens. Student's management committee looks after hostel messes in consultation with wardens/ assistant wardens.

### **• Hostel Rules and Regulation**

- The student will abide by rules promulgated by the principal from time to time.
- Students are not allowed to keep fire arms or narcotics in their rooms in hostels.

- Unauthorized students will not be allowed to live in the hostels. If such case is reported strict disciplinary action will be taken against the students who accommodated unauthorized guests.
- No female guest is allowed in the boy's hostels and no male guest is allowed in the girl's hostels under any circumstances.
- Each Boarder will pay all hostel and mess dues by a specified date. Defaulters will not be allowed to live in the hostel.
- Any student guilty of misconduct and violation of hostel rules will be expelled from hostel by principal on advice of the warden of hostels.
- The students will be responsible for paying extra dues for additional use of electric appliances like air conditioner, refrigerators, microwave ovens etc.

# Living at AMDC

## Mess Management System

- The warden has appointed separate mess committees and prefects to supervise the mess of the hostels each for Boys & Girls.
- The assistant warden ensures appropriate excellent standard of cleanliness and standard of food in mess.
- Proper record of meals taken by the student and payments made by them is maintained by the mess manager / contractor.
- The principal exercises his/her discretionary power to rectify any problem being faced by students regarding hostel mess.

## Timings of the Boys Hostels

All students should be present in their rooms by 10:00 p.m. Assistant Warden (or his representative) will check the presence of students in their rooms at 10:15 p.m. The name of absent students will be reported to warden.

## Special Rules for the Girls Hostels

All girl students should be present in hostel rooms/premises by 8:00 p.m. They shall provide a list of visitors duly approved by their parents or guardian to the Assistant Warden. A record register of departure & arrival will be maintained by the assistant warden to observe timings of girl's students going out of hostel in afternoon.

## Visit of the City for Boarder Students

For visit of the city, specific days are fixed for the boys and girls, and college transport will be used for the purpose. The students are also taken to Bahria Town market twice a week on college transport.

## Duties of the Warden

- Warden carries out the implementation of hostel policy as prescribed.
- He is responsible for overall discipline in the hostels.
- He takes all steps to make hostels as comfortable for students as possible.
- He arranges indoor games in the hostel and encourage healthy interaction among students.
- He ensures best quality arrangements for student's mess.
- He keeps close scrutiny on hostel accounts relating to mess and general store items.

## Duties of the Assistant Warden

- They carry out policies of Principal and Warden regarding hostels.
- They assist the warden in maintenance of discipline in the hostel and ensure that all students are in their rooms by a specific time at night.
- They report all infringements of discipline immediately to the warden.
- They ensure excellent sanitary conditions in the hostels and the messes.
- They prepare duty rosters of hostel servants.

# Faculty

The faculty at Akhtar Saeed Medical & Dental College, is one of its major strengths. The college strives to choose its faculty members for their excellence and leadership in their respective disciplines and biomedical research. They combine a commitment to excellence in patient care and clinical teaching with a drive to develop new knowledge and an insight in their areas of expertise. Their scholarly and inquiry based approach makes them stimulating

teachers to whom student respond by developing an attitude of clinical inquiry. Such attitude is of immense importance as precursor to the life-long learning, required for all physicians, whether they are to be clinical practitioners, or researchers or both.

## Library Services

The College has a well established central library. It has all essential medical books needed for medical students and faculty. A general section of the library has books on religion, culture, history and Pakistan movement, helping the students in personality development. The library has educational CDs & DVDs and a portal of Digital Library equipped with computer workstations with facility of internet services. A well trained librarian along with other staff have been appointed in the library to facilitate the students and faculty members. The working hours of the library are from 8.30am to 10.00 pm. The students should utilize the library facilities as all the

recent editions of important books are available. Moreover, important scientific Journals are also subscribed for the library.

## Skill Labs

Besides basic medical and dental sciences, a state of an art clinical skills laboratory is another unique and distinguished feature of Akhtar Saeed Medical and Dental college. Dental preclinical skill labs form a significant part of 2nd & 3rd year where students study, develop and special hands-on practice on phantom heads (simulators) as a part of clinical training. A total of 16 independent dental units each having individual Phantom head work station with upper and lower jaw having acrylic teeth are installed. The pre-clinical course of operative is taught from the 2nd professional year of BDS during which students have complete information and knowledge about tooth morphology to work on simulators teeth models in Phantom lab (Skill lab) to get a life like feel for a clinical application. The main objective of skill lab is to develop and

improve the skills of dental students and to form their basic concepts of clinical dental specialties like operative dentistry. After completing the skill lab rotation, students will be able to work in stress free, simulated oral environment. The second clinical skill lab consist of main hall for BLS & ATLS trainings with individual sections for medical, dental, surgical emergencies and pathological skills.

# Admissions

## Admission policy

Akhtar Saeed Medical & Dental College, Lahore (ASMDC) follows the admission policy issued by the PMC/PM&DC. For admission to medical colleges, each Province or territory shall determine the merit structure based on the student having qualified the MDCAT at 55% for admission to medical colleges and 45% for admission to dental colleges. ASMDC will frame its individual merit criteria for admission subject to PMC/PM&DC admission regulations.

<https://pmc.gov.pk/Documents/Examinations/MDCAT%202022%20&%20Eligibility%20for%20Admission%20in%20Medical%20and%20Dental%20Colleges-updated.pdf>

- If a seat falls vacant, the next candidate on the merit list in that category will be selected.
- The College will verify academic certificates submitted by the candidates as early as possible from the concerned authorities.

# Admissions

## Merit Calculation Policy of AMDC

The following link defines structure that will be followed for admission to the 1st year BDS, session 2022-23

<https://amdc.edu.pk/wp-content/uploads/2022/07/Merit-Calculation-For-MBBS-Session-2022-23.pdf>

## Migration policy

### • For Local Student:

AMDC follows the Migration policies which is laid down in PMC/PM&DC & University of Health Sciences (UHS) regulations.

### • Link of PMC/PM&DC Migration Policy

<https://pmc.gov.pk/Documents/Career/290%20Notification%20PMC%20National%20Transfer%20Policy%20on%20Vacant%20Seats.pdf>

### • Link of UHS Migration Policy

<https://www.uhs.edu.pk/downloads/migrationrules.pdf>

### • From Foreign Medical College:

All students in foreign medical/ dental colleges who wish to migrate to Pakistan can now register themselves online for NEB exam.

On qualifying the NEB exam, all such students can apply immediately for admission in Medical/Dental Colleges in Pakistan on vacant seats for the Session 2022-23 in the relevant year.

No foreign migration will be entertained without qualifying the NEB exam.

## Medical fitness requirements at the time of admission

- The candidates who have been selected provisionally shall be examined medically by a medical board to be constituted by Principal of AMDC.
- The selected candidate must produce certificate of having been:

- Inoculated against typhoid fever within preceding twelve months.
- Fully vaccinated against tetanus.
- Fully vaccinated against Hepatitis "B".
- All candidates must produce certificate stating his/her serological status of HCV & HBV, HIV & COVID-19 Certification .
- The list of selected applicants for admission in AMDC will be notified after medical fitness examination and having passed aptitude test/interview of AMDC Lahore.

## Interview Pattern

### • The Multiple Mini-Interview

Interviews are one of the opportunities for AMDC to assess the applicants in person. Candidates have reached this stage because of their sufficiently high academic standing. AMDC selected Multiple Mini-Interview (MMI) as an admissions interview tool.

### • Operational Details

- Each mini-interview takes place on different stations.
- When the applicant comes to the station, he/she will greet and introduce himself/herself.
- The applicant then will see a card with few lines describing the scenario.
- The applicants will have three minutes for each station and will be told when they may enter the station.
- The applicants will be assessed on the following skills like ethical decision making, communication skills, collaboration/task oriented, leadership skills, time management, stress management and personal interviews.

### • Scheduling of Interview

In case of any emergency or same day interview in other college, if applicant want to reschedule the interview, he/ she can apply to admission cell via official email address/ portal.

4. Prosthodontics

# Discipline

In order to keep an atmosphere of serenity and calmness in the dental college, hostel and teaching hospitals following disciplinary rules will be enforced.

## Contribution of Disciplinary Committee

- A Disciplinary Committee (DC) shall be constituted by the principal. The committee shall be comprised of minimum one or more Professors and one or more Associate / Assistant Professors. The principal shall have the power to re-constitute Disciplinary Committee from time to time.

## Function of Disciplinary Committee

- Any major act of indiscipline committed by a student/group of students will be brought to the notice of the Principal, and referred to the chairman of the Disciplinary Committee. The DC will conduct a detailed inquiry into the matter and submits its findings and recommendations to the principal.
- The principal will implement the recommendations of DC. However, the principal shall have the power to decrease or amend the punishment recommended by the DC.

## Punishment in Disciplinary Committee

- The various forms of the punishments which may be awarded are as follows:
  - A written warning to be careful in future.
  - Suspension from the college roll for a period of 14 days.
  - Imposition of fine up to Rs. 10,000/- depending on the gravity of the indiscipline.
  - Expulsion from the hostels.
  - Expulsion from the college for six months to two years.
  - Rustication and permanently striking off the college roll and never to be admitted in the college.
  - The cases of infliction of injuries, major theft, possession of weapons/firearms, arson or homicide, will be referred to the laws enforcing agencies for proceedings according to the law of the country.

## Vigilance Committee

- Minor acts of breach of discipline will be referred to a Vigilance Committee for probing and deciding punishments. The Vigilance Committee will also supervise the students with regard to their behavior in the college, observance of the dress code and bunking of classes, etc. The Vigilance Committee shall consist of at least one Professor and one or more Associate/Assistant Professors.

## Hostel Rules and Regulations

- The student will abide by rules promulgated by the Principal from time to time.
- Students are not allowed to keep fire arms or narcotics in their rooms in hostels.
- Students are required to observe the following rules during the course of their studies at the college.
- Unauthorized students/outsideers will not be allowed to live in the hostels. If such case is reported strict disciplinary action will be taken against the students who accommodated unauthorized guests.

# Discipline

- No female guest is allowed in the boy's hostels and no male guest is allowed in the girl's hostels under any circumstances.
- Each Boarder will pay all hostel and mess dues by a specified date. Defaulters will not be allowed to live in the hostel.
- Any student guilty of misconduct and violation of hostel rules will be expelled from the hostel by the principal an advice of the warden of hostels.
- The students will be responsible for paying extra dues for additional use at electric appliances like air conditioner, refrigerators, microwave ovens etc.

## **Timings at the Boys Hostels**

- All students should be present in their rooms by 10:00 pm. Assistant Warden [or his representative] will check the presence of students in their rooms at 10:15 pm. The name of absent students will be reported to the warden.

## **Special Rules for the Girls Hostels**

- All girl students should be present in the hostel rooms/premises by 8:00 pm. They shall provide a list of visitors duly approved by their parents or guardian to the Assistant Warden. A record register of departure & arrival will be maintained by the assistant warden to observe the timings of girl's students going out of the hostel in the afternoon

# Code of Conduct

Students are required to observe the following rules during the course of their studies at the college.

- Students will not be allowed to keep any guest in the college hostel without the prior written approval from the competent authority i.e., warden hostels or Principal. However, it should be noted that no female guest can be kept in the boy's hostels and no male guest can be kept in girl's hostels under any circumstances whatsoever,
- Students are forbidden from indulging in any political, partisan or sectarian activity in the college and its affiliated hospitals, or in the hostels.
- Unauthorized absence from class will be considered as a serious breach of conduct. In case of illness, students will be required to submit a medical certificate from a registered medical practitioner.
- Students commuting by the college transport are required to maintain discipline in the vehicles while commuting to and from the college. Any damage caused to the transport by students will result in severe action, including but not limiting to paying the cost of necessary repairs.
- Any damage caused to the property of the college or affiliated teaching hospitals & hostels which include laboratory equipment, furniture & fixtures, canteen, library books, Plantation etc. or any other thing in the premises of AMDC, will be considered as serious act of indiscipline and student will be asked to compensate as determined by appropriate authority.
- It is mandatory for all students to remain in college premises during working hours. Anybody venturing out in the surrounding areas will do so at his/her own risk and will be liable for necessary disciplinary action.
- It is mandatory for all students to wear overall coat and must display their college ID cards in college premises.
- Chalking is strictly prohibited and necessary action will be taken against those students who are found indulged in doing so.
- Drug abuse and Smoking is strictly prohibited in college, hostel premises & affiliated hospitals.
- Student must follow the dress code of the college, as notified by the college administration from time to time. Violation of college dress code will result in disciplinary action against the defaulters.
- The students found misbehaving with any faculty member or the administrative staff will be dealt with as per disciplinary rules.
- Use of social media inside or outside of college premises against the college administration, faculty members, and fellow students is strictly prohibited. Strict disciplinary action will be taken against students who are involved in these mentioned activities.

**Note:** *The college authority reserves the right to amend, change or modify these rules at any time without giving any prior notice.*

# Student Policies

## Mechanism of Student support

AMDC ensures that every convenience is provided to enable a smooth, stress-free campus life where students can single-mindedly focus on their education, helping them transform into confident and competent medical and health professionals.

As a complement to the academic programs, AMDC provides social, cultural and entertainment avenues for students to showcase their extracurricular talents. The college also arranges academic and general counseling as well as career guidance.

The activities of the student services are planned and implemented by the Office of Student Affairs with cooperation and collaboration of Student Council, students, faculty and staff.

## Students Support Services

# Student Policies

## AMDC Administration

This office deals with a wide range of issues pertaining to a student's life at the campus such as coordinating admissions, examination, accommodation, financial matters, research and extra-curricular activities.

Our campus is intentionally designed to strengthen a range of learning environment to support education. From academic tutoring, a student-centered library, and a learning commons, to state-of-the-art simulation, skill labs and a fully-equipped laboratories, AMDC continually strives to enhance educational experiences.

## Academics & Curriculum

The curriculum at AMDC is based on traditional curriculum design with interaction at different level, as proposed by UHS and PMC/PM&DC. Interaction at horizontal levels assures that the thirst for higher order of knowledge is quenched, while vertical integration ensures clinical application of knowledge at a time when that knowledge is still fresh in the mind of the student. The mode of teaching is student-centered, with maximum utilization of resources by students in self-learning, keeping the role of teachers as facilitators. In this manner, a problem solving mindset is gradually built up, which will sustain the student in good stead throughout his/her professional life.

## Counseling & Career

The goal of counseling at AMDC is to help students and alumni develop a better understanding of their abilities, skills and interests as well as their personal and career goals. It seeks to help students develop a strategic action plan to reach their respective goals.

### The educational/psychosocial Counselor can help you

- Feel understood by offering empathy to a patient
- Understand yourself
- Articulate your values, skills and interests
- Brainstorm for solutions to your concerns
- Organize your time and study material and thus avoiding high stress
- Explore career possibilities
- Learn about how majors and careers relate to one another
- Find industry-specific advice and information
- Identify internship and job opportunities
- Develop job search skills, write a resume and prepare for an interview
- Create strategies for making the most of your AMDC experience

## Students Confidentiality

AMDC has developed the policy to maintain confidentiality regarding academic records and medical records. The faculty inform the student about their attendance and academics on individual basis.

## Provision Of Preventive And Therapeutic Services

The students will be provided with all emergency medical services free of cost as well as indoor and outdoor medical facilities at 50% discount basis. The college holds workshops for prevention of diseases and infection control program.

# Student Policies

## Other Services

Confidential counseling sessions with the Student Counselor are provided for academic and emotional concerns, career-related discussions, dissemination of information and advice to help you resolve your concerns and to develop an effective career plan. Recommendation of resources to research specific career subfields and self-assessment and decision-making strategies are provided so that you can navigate your degree program successfully and plan for future possibilities appropriate to your aspirations and ambitions.

- **Job and Internship Listings**

A wide variety of tools are available for AMDC students.

- **Career Tools and Information**

These are tools to help through the professional development process from self-inquiry all the way through negotiating a job offer

- **Appointments**

As our goal is to help and support you with your concerns and also in exploring career options and locating internship and employment opportunities that match your individual interests and fields of expertise, do not hesitate to approach the Student Counselor as and when required.

- **By Appointment**

Call to schedule an appointment with the Student Counselor on: 0300-4142426 and for education related queries students can contact medical education department.

## Drop-In Advising

You may drop in even without an appointment, in case of urgent need.

- **Follow up**

You may expect the Student Counselor to follow up on your concern after your initial session. You too are free to follow up on your concern.

## Career Advisory Services

We at AMDC regard career building as an important responsibility. In addition to individual counselling, this advisory service holds seminars and workshops to increase general awareness of the professional pathways available. It is extremely important that the students become fully aware of future prospects and career pathways. Unless the students possess the awareness and make timely decisions a great deal of time is wasted and the community loses the services of a talented professional.

## Mentorship

The Senior Faculty of Akhtar Saeed Medical College (AMDC) is assigned a small group of medical students for mentorship and counseling. The office hours indicating availability of faculty is provided to students who can meet or through e-mail in order to discuss any academic as well as non-academic or personal matters with their mentors. All mentors have been assigned 9 to 10 students.

Mentors are advised to get in touch with the students and send their reports to the Principal on a regular basis.

Senior faculty of the medical college and hospital also mentors extra-curricular activities and head student's societies.

# Student Policies

In addition to the mentors, a student is free to visit any faculty member maybe that they need help from. Junior faculty is often assigned to students. Demonstrators and lecturers are also available to help them in small groups. They remain in close contact with the students to ensure smooth execution of teaching process.

## Scholarships for Students

Please visit PMC/PM&DC policies for fee waiver policies.

<https://pmc.gov.pk/PublicNotices>

## Office of Financial Assistance

Financial Assistance office deals with evaluation of those who need financial support to get higher education.

### **Vision:**

To provide the most effective, efficient, and generous Financial Assistance program to students of AMDC so that they may get an opportunity to grow in their careers and contribute significantly towards the growth of country.

### **Mission:**

To provide a platform to students to achieve their educational goals on the premise that Financial Constraints should not be a barrier to their quality education and future.

### **Objectives:**

To facilitate to the students by providing them timely financial support through fee waivers and fee installments on case to case basis.

## Self Learning Resource Centers (SLRC)

To facilitate and encourage self learning by the students, SLRC and college library is at of AMDC. Each of these provides seating facilities for up to 32 students at one time. Full fast-speed internet facilities, electronic media (CDs, DVDs) and conventional book libraries in these centers will help students to supplement their regular curricular knowledge with the latest global knowledge resources . A list of recommended books is available with the departments/library.

## Student Societies

Through the presence of various societies, AMDC aids the development of its students on a more personal level and allows them to pursue their interests aside from academics. The current active societies of AMDC are:

- AMDC Art and Literary Society
- AMDC Sports Society
- AMDC Social Welfare Society
- AMDC Debating Society
- AMDC Event management Society
- AMDC Fun fair Society
- AMDC Dramatic society
- Other Societies are formed time to time as permitted by the management.

# Student Policies

AMDC organizes many social, cultural and entertainment programs. Students are encouraged to develop their interests and abilities, and to practice their hobbies through a variety of programs and activities. The college places a lot of emphasis on its extracurricular activities, and enables students to make good use of their leisure time through student cultural and scientific societies. Here are some examples of the student's cultural activities.

- 1) Pakistan National Day
- 2) Cultural Day
- 3) Public Speaking Competition
- 4) Welcome/ Fairwell Party
- 5) Excursion

## The Sport Facilities And Programs

Sport programs at AMDC are considered as an integral part of the student life. They are provided to meet the athletic needs of the students as well as to promote the athletic spirit; foster team work and positive attitude, accelerate social interaction among the AMDC community.

Athletics include a wide range of indoor and outdoor activities e.g. football, basketball, Volleyball, Badminton, Cricket, table tennis and Chess. Moreover, two gymnasium halls are well equipped and made available for students. AMDC provides separate sports activities, timings and facilities for male and female students housed in the campus.

## Students Council

It is formed at the beginning of every academic year to promote the common interest of students and operate in a manner consistent with the AMDC's mission and code of conduct. The student council is comprised of 16 members representing all the academic years. The elections are held at the commencement of the academic year. The terms of office of members shall be for one year, commencing from the starting date of the academic year, and ceases on 31st November of the subsequent year. Responsibilities of the student council include:

- Representing the student body for all requests brought by students to the College.
- Ensuring the speedy acclimatization of new students to AMDC by promoting healthy friendships.
- Encouraging student participation in the extracurricular activities.
- The Council inauguration is annually held with the presence of the college Management, Faculty and Staff where the new representatives receive their sashes and badges and administered the oath.
- The student council conducts regular meetings every 3 months, where the student body problems are discussed and also extracurricular activities are planned.

## Student Magazine

The student magazine 'Karwan e Saeed' was launched on January 01, 2015 in a colorful ceremony. This magazine is managed by the student editor(s) under the supervision of a senior faculty member and is being regularly published since then.

# Student Policies

## Dining Services

The student cafeteria located within the Student Center serves hygienic and cost effective meals and refreshments to the students. Snacks and beverages are also available in the campus.

## Transportation Services

AMDC provides transportation in air-conditioned shuttle buses to all students from different locations, subject to the availability of an adequate number of buses. For detailed information on transportation, students are advised to contact the Office of the Student Affairs.

## Co-curricular/Extra Curricular Student Activities for the Academic Year 2022-2023

# Affidavit (specimen)

(To be submitted with the Admission Application on Stamped Paper of Rs. 50/-)

1. I solemnly declare that all the particulars mentioned in the admission application are true and correct and I fully understand that if any of the statements made in the application is found to be incorrect, I would be liable to refusal for admission to the AMDC, Lahore if otherwise eligible for admission and admitted, would be liable to be expelled from the college at any time during course of my studies in which case all fee and other dues paid by me to the college shall be forfeited and I will be liable to any further departmental or legal action which the AMDC may deem fit to take.
2. I am not already admitted in any of the dental colleges of the country.
3. I also solemnly declare that, if admitted, I will abide by the disciplinary rules and regulations of the college as enforced at present and amended from time to time by the college authorities in future. I will concern myself only with the academic activities and such extracurricular activities, which are allowed by the college for the healthy growth of body and mind. I undertake that I will not take part in any political, partisan, sectarian/religion activity or agitation and I will not become a member of any student wing of any political, sectarian or caste-based party. In matters of discipline, the decision of the Principal will be final and binding on me and I will not challenge that decision in any court of law in the country. I will be regular in paying college dues and will be punctual in attending my classes. I will not absent myself from teaching programs without prior permission of the authority.
4. I undertake that so long as I am a student of the college, I will do nothing either inside or outside the college, hostels and hospital premises that may interfere with its orderly administration and discipline or may bring bad name to the college.
5. I fully understand that if I fail to clear the first Professional BDS and second Professional BDS examination in four chances availed or un-availed after becoming eligible for each examination, I shall cease to be eligible for further dental education in Pakistan.

## Departments at AMDC

---

# Oral Biology

The Subject includes the study of the development, structure, form and function of the oral cavity and its constituent parts with special emphasis on the gross and microscopic structure and teeth and their supporting structures.

Oral biology is diverse scientific area encompassing all the study parameters of oral and maxillofacial biology. This subject is taught as a first subject in the first year BDS course as a bridge between basic medical sciences and clinical dentistry. It includes the subdivisions such as Oral Embryology, Oral Histology, Oral Physiology and Tooth Morphology.

Oral biology department has well equipped lab with modern teaching facilities for students. Students are taught and trained for clinical improvisation on special oro-facial models and tooth moulds to help them understand the subject broadly.

## Head of Department

**Dr. Kanza Nawadat**

BDS, M.Sc (U.K)

Dr. Kanza Nawadat graduated from Islamic International Medical and Dental College Islamabad in 2012. She did her post graduation (M.Sc Oral Biology) with a Merit from Queen Mary University of London in 2015. Right after her M.Sc degree she joined Islamabad Medical and Dental College in Dec 2015 as a Senior Registrar in the Department of Oral Biology, where she served for a period of 2 years. There she was actively involved in the teaching of Oral Biology and Tooth Morphology to the 1st year BDS students. She was also under training for the modular education system program supervised by a very competent team of medical and dental education at Islamabad Medical and Dental College. She joined Akhtar Saeed Medical and Dental College as an Assistant Professor in January 2018. Presently she is serving as an Assistant professor and Head of the Department of Oral Biology and Tooth Morphology at Akhtar Saeed Medical and Dental College Lahore.

# Medical Education

Department of Medical Education has been established at AMDC in line with the requirement of PMC and to address the demands of offering quality education and training in a rapidly changing health care system. Its programs and activities are streamlined and supervised by a team of faculty members, experienced in activities of medical education and workshops. The Department primarily focuses on activities that promote and support development and functions of faculty as educators and students as learners. The main activities of this department are as follows:

Curriculum development, integration of teaching of various subjects, development of hand books, training protocol for students for knowledge skill and attitude, career counseling, development of time table for various classes, development of procedural skills, program for class / ward test, students counseling, assessment tools, development of skill lab, Clinico pathological conferences, tutorial groups and arranging workshops etc.

**Prof. Dr. Rizwan Zafar Ahmad**  
MBBS, FCPS

Professor Dr. Rizwan Zafar got graduated from King Edward Medical College and obtained fellowship in medicine from college of physicians & Surgeons of Pakistan. He has presented papers in National & International conferences. He is supervisor and examiner at CPSP in subject of Medicine. He has a special interest in training under graduate medical students and postgraduate residents.

## Head of Department

### Dr. Muhamamd Mahmood Alam Durrani

M.A Islamic Studies (P.U) / Associate Professor

M.A Political Science (Pujnab University)

M.Phil. (Islamic Studies)

The Department is headed by Dr. Muhammad Alam. He did his M.A (Islamic Studies) from the University of Punjab, Lahore. He stood first in the university in order of merit and got gold medal. He has a vast experience of teaching Islamic Studies at various institutions including University of Engineering & Technology and Allama Iqbal Open University etc both at graduate and post graduate level. Islamiyat and Pakistan Studies is a part of the syllabus of M.B.B.S course. It is very important that medical graduates are given insight into basis of struggle for independence of Pakistan and Islamic ideology. Every effort will be made that students are given basic teaching and base line knowledge of both topics in a scientific manner in the light of prevalent world scenario.

# Science of Dental Materials

Science of Dental Materials is an immeasurably diverse and evolving subject which is not only important for students but for all practitioners of dental sciences.

The aim and objective of this department is to provide the students with the basic knowledge of dental materials their composition, properties and their subsequent clinical application. The sciences of dental materials involves a study of the way in which they interact biologically with the environment in which they are placed.

For this purpose, our department has state of the art equipped labs, fulfilling the PMDC requirements with all modern lab equipment and materials.

## Head of Department

**Dr. Zenab Sarfraz**  
BDS, M.Phil.

Dr. Zenab Sarfraz did her BDS from Altamash Institute of Dental Materials, Karachi in 2006 with distinctions in Community Dentistry and Dental Materials. She did her M.Phil. in Dental Materials from Postgraduate Medical Institute / University of Health Sciences, Lahore in 2014. She worked as a Clinical Research Associate in Dental Materials Department at Interdisciplinary Research Centre for Biomedical Materials, Comsats Lahore from 2013-2015, where she was actively involved in various HEC and Internationally funded research projects. She was also responsible for research supervision and lectures of Post graduate students of M.Phil. Dental Materials at UHS. She has 14 publications in International journals as well as local journals of her research work in Dental Biomaterials to her credit.

# Oral Pathology

The department of oral pathology was established in March 2014. Oral pathology is one of the basic science subjects in dentistry which is related with oral diseases, its etiologies, effects, microscopic interpretation for final diagnosis and the improvement in the treatment planning. The Oral Pathology course as per UHS curriculum is taught in 3<sup>rd</sup> year of undergraduate students at Akhter Saeed Dental College. It favors in depth study into pathologies of the oral cavity including Periodontium, teeth, oral mucosa, tongue, salivary gland and jaws. The lecture theaters are fully equipped with multimedia.

Our teaching methodology includes lectures, interactive sessions, group discussions and lab training. The department comprises of well trained and experienced faculty with the departmental library and state of the art laboratory facilities with all the requirements i.e. optical microscopes, multi-head microscopes, autoclave, microbiological medias, refrigerators for specimen handling, centrifuge machine, incubator and all the other equipment which is mentioned by PMDC for a complete and well equipped oral pathology laboratory.

## Head of Department

### Dr. Sadia Minhas

BDS, M.Phil., Ph.D (Microbiology), CMT

Associate Professor Dr. Sadia Minhas got graduated from Khyber College of Dentistry, Peshawar in 2005. She got her M-Phil in Oral Pathology from University of Health Sciences, Lahore in 2014. She completed her PhD and research work in Microbiology/Urology field from university of Lahore in 2022. She has 12 years of experience at her credit. She worked as an Assistant professor at AMDC since 2015 till Oct 2020. She worked as resident dental surgeon at Al-qunfudah general hospital, Saudi Arabia and lecturer at University of Health sciences. Dr. Sadia has outstanding achievements in medical research field. Her main filed of interest is clinical microbiology, Urology, Cytology and Oral cancers. She has 25+ publications on her credit, in renowned national and international journals. She is actively involved in multiple research projects. She has a number of paper presentations in both national and international forum. Dr. Sadia is a member of American society of Microbiology, International association of Oral Pathology and international federation of infection control.

# General Surgery

General surgery is an integral part of training and teaching of BDS curriculum. A specific number of hours are allocated in the preclinical years of BDS curriculum. The clinical training starts in 3rd year. Over the years the field of surgery has expanded many folds. New specialties have been introduced. However, general surgery remains the mother of all the fields. Without exposure to general surgery the training of the students even at the post graduate level remains deficient. Beds are specified for teaching the clinical skills to the BDS classes.

The undergraduate students during their rotation in surgery learn basic principles of surgical management. They are trained in the management of trauma and emergency surgical procedures. In addition systemic surgery is an essential component of this field.

## Head of Department Dr. Muhammad Rashid Siraj

MBBS, MCPS, FCPS (Surgery), MRCS (Edinburgh), MIS (France)  
Contesting for Executive Member under the leadership of Prof Asghar Naqi and his team.

Prof. Rashid Siraj did his MBBS in 2002 from Allama Iqbal Medical College (AIMC) Lahore, Pakistan and joined Services Hospital for residency. He did MRCS from Edinburgh in 2008, FCPS from CPSP in 2010, MRCS from Ireland in 2012, Diploma in Minimal Invasive Surgery from France in 2014, Certification in Medical teaching from UHS in 2016 and FACS from America in 2019. He has the honour of holding memberships of distinctive international societies as well. His special interest is in Bariatric and Advanced Laparoscopic surgery.

Currently, he is the Professor of Surgery at Akhtar Saeed Medical and Dental College (AMDC) and Farooq Hospital. He has worked as Dean of Clinical Sciences at AMDC and is the Project director of Akhtar Saeed Institute of Nursing due to his extraordinary administrative and communication skills. He is also the supervisor of Surgery at CPSP. He has a keen interest in research and has published many articles in prestigious National and International Medical Journals. ### Head of Department

**Prof. Dr. Waseem Ismat Chaudhry**

MBBS

Diplomate of the Iranian Board in Anesthesia  
Fellow of the College of Physicians and Surgeons of Pakistan  
Pain Management Training Liverpool, England

Prof. Waseem Ismat graduated from King Edwards Medical College, Lahore in 1977. Joined Shiraz medical university residency program in Anesthesia. He topped the Iranian board exam in 1985 and came to Pakistan to join King Edward medical college as assistant Professor in 1986.

He established neonatal anesthesia department at the Paediatric surgery department and helped reduce the surgical mortality rate in neonates. 1988 he went to England for Pain Management Training at the Pain Relief Foundation Walton Hospital, Liverpool UK and learned the latest invasive procedures in pain relief for cancer patients and placement of implants for epidural drug delivery systems. He acquired an extensive experience of neurosurgical anesthesia at the Neurosurgical unit of KEMC at Lahore general hospital from 1990 to 1994. He was promoted to Associate professor of Anesthesia by the Punjab public service Commission in 1994 and later selected as Professor of Anesthesia & ICU in 1996 at Sheikh Zayed Hospital and Federal Post Graduate Medical Institute Lahore, from where he retired in 2014 after serving as professor of Anesthesia for more than eighteen years.

He has been always involved in the academic activities of the specialty and acquired second Fellowship in Anesthesia from the College of Physician and Surgeons of Pakistan in 1999. Since then he has been a member of the Faculty of Anesthesia of the college and continued his services as Supervisor and Examiner of the MCPS and FCPS examinations. He has also been involved in paper setting and preparing TOACS stations for MCPS & FCPS examinations. He has several Publications to his name in the recognized national and international journals which made other universities like University of Health Sciences, King Edward Medical University and Punjab University to put him on their Panel of examiner for their postgraduate courses like MS & DA and is regularly involved in paper setting assessing and conducting VIVA exams for the Universities. He is also a member of the Faculty of the Committee of European Education in Anesthesia (CEEA) and delivers lectures on various topics every year at the courses held by the committee.

CPSP and PMDC have been sending him for inspection of various institutions and examinations for recognition and quality assurance. He established Pain clinic and Epidural services for painless delivery at Sheikh Zayed Hospital. Neurolytic blocks like Coeliac Plexus block for pain relief of Cancer patients has been his passion during his service. He was part of the team that conducted first Live Related Liver Transplant in Pakistan at his institute and for the purpose he went to Organ Transplant centre at Shiraz Medical University Iran to update himself with the Anesthesia tips for Organ Transplant surgery. Prof. Waseem served as secretary of the Pakistan Society of Anesthesia Lahore for several years during his infancy and was also the Editor of the journal of Pakistan Society Anesthesia, Lahore. The Society elected him as vice President for two years and later became the President of the society from 2000 to 2004. He is a member of the editorial board of the Anesthesia journal "APICARE" (Journal of Anesthesia, Pain & Intensive care).

# Radiology

The Department of Radiology at Akhtar Saeed Medical and Dental College provides a complete range of Diagnostic and treatment related imaging services. We offer 24/7 services that accommodate the needs of inpatients, outpatients and outside referrals by providing the best possible modern diagnostic facilities. Our skilled team of specialists use state-of-the-art equipment to provide high-quality imaging and image-guided treatments in a caring, safe and efficient environment. Radiology services are equipped with two latest MRI machines (1) 1.5T Espree MRI and (2) Siemens Open MRI 0.4 tesla, four CT Scanners (3) 128CXL slice CT scanners (1) 16

slice RXL, Fluoroscopy, 18 state of the art Modern ultrasound machines with several having specialized facility of Shear Wave Elastography, Echocardiography, 4D & Doppler imaging. The facility of Mammography, Dexa Scan and OPG are also available.

The general radiography procedures inclusive of IVP and Fluoroscopy are carried out on Computed Radiography System (CR) and Digital Retrofit (DR) which has minimized the patient waiting time and radiation dose. The Institute has 9 Modern Digital Fluoro C-ARMS to assist in Intraoperative imaging. There are total five Digital Subtraction Angiography (DSA) machines including 2 Bi-plane systems with highly skilled Interventional radiology team, which provide a wide range of diagnostic & therapeutic procedures including vascular & non vascular interventions.

There are 8 Mobile X-ray systems to enhance patient imaging in the Intensive care Environment. The Department is moving towards film-less radiology and is fortified with effective Picture Archiving and Communicating System (PACS).

The department possesses a team of highly qualified Radiologists, Research faculty, highly qualified (MID) and experienced/trained team of radiographers & IT support staff, making it one of the leading teachings & post graduate training department in the region. All our facilities have resulted in enhanced quality of patient care and Farooq group of hospitals is pioneer in online reporting From Abroad which is Accomplished within the shortest span of time to facilitate patient diagnosis and treatment.
